    * Train tickets booking engine for EU rail companies (Bene, Thalys, Eurostar etc)
    * Airport lounge booking engine
    * Dynamic pricing for metasearch engines (Skyscanner and Momondo)
    * Payment gateways (redirect) - Alphabank, Piraeus, Ecommpay, Six
    * Extra services (e.g Seat selection via a SeatMap, CO_2 Offsetting via GoClimate, Car insurance, Car ancillaries etc)
  - corporatefigame.com - Online Corporate Travel Agency
    * Online Booking Tool for Corporate Clients
  - Other projects
    * figamehotels.com, figamecars.com, figamelounges.com
  - Depricated projects

- ∗ figametickets.com, figameradio.com, zitaflights.com
- ∗ (Partnership with easygroup) - easyair.com, easyfly.co.uk, easysky.co.uk, easyflights.co.uk, easycorporatetrips.com
- Android App and iOS App — 'figame.com - Business Travel'
    - Built with react native framework

kongkika.gr   Personal Projects

· My CV on a web format (kongkika.gr)
· A covid-19 tracking. Experimentation with p5.js by creating a covid-19 spreading simulation. (covid-19.kongkika.gr)
· Working on travelotool.kongkika.gr - A metasearch engine for flight booking like skyscanner.
· Experimenting with bootstraps latest version. (unipi.kongkika.gr)

GOALS

I'm open in new ideas, suggestions and opinions. My goal is to learn more about Android and iOS development and get to work with new technologies.
